## New HP Z6100 42" and 60"-wide Printers

The just-announced 42" and 60" Z6100 printers replace the 5500 models. These new printers are **fast** and **versatile**. They are ideal for graphics print service providers doing posters/POP displays, tradeshow graphics, short-term outdoor signage, digital fine art and proofing. The 42" model sells for \$9,995, and the 60" for \$18,500. We have all the info available.

## Epson 64"-wide Printer Rumors

Chatter on the Internet hints about a new 64"-wide Epson printer with **blazing speed** and very cool features, supposedly available **this Fall**. We cannot confirm the rumors but just for drill, we are penciling in people on a loose **pre-order list** for this new rambo. Please do let us know if you are interested in getting on the list. Stay tuned . . . we will let you know when any official Epson announcements are made.

## ColorByte ImagePrint RIP vers7.0 Released

Finally it's here! This new version offers many new features including **Artistic Borders, Improved Templates, Smart Crop, new Layout Tools** and more. It is compatible with Vista and Intel Mac's.

If you recently purchased ImagePrint (back to Feb 8th) and are eligible for a free upgrade, drop an email including your dongle number, to support@colorbytesoftware.com with a request for the new version. To

purchase a new package or upgrade, please contact JVH Technical. We provide a lot of ImagePrint support and can help you with this excellent software.

## Epson "Pro Bundle" upgrade to ImagePrint

ColorByte Software is offering **special pricing** to people who originally bought the Epson/ColorBurst RIP bundle with their Epson Stylus ProEdition printer, but now wish they were using **ImagePrint** instead. Special upgrade prices are:

Epson 4800 Pro Bundle Upgrade - \$695.  
Epson 7800 Pro Bundle Upgrade - 795.  
Epson 9800 Pro Bundle Upgrade - 1,750.

This is a good way to get some credit for your ProEdition RIP software in order to purchase the great ImagePrint RIP software. Please contact JVH for all the details.

## Exciting new Fibre Photo Papers

These media are **hot!** The **FineLine** Fibre Photo™ Gloss has been modeled on traditional silver-halide papers. The media achieve ultra low densities using Photo Black ink instead of traditional Matte Black ink. The lineup includes:

Fibrephoto Gloss 300 gsm - bright white  
Fibrephoto Gloss 300 gsm - natural  
Fibrephoto Satin 300 gsm - bright white  
Fibrephoto Matte 280 gsm - bright white

**Moab** also has some terrific new Fiber papers. Available in 245 gsm Gloss and Satine finish, the Moab alpha-cellulose paper displays **brilliant whites** and industry's **deepest blacks** possible, through its multi-layered technology. The smooth surface is enhanced with a slight fiber texture, resulting in a midweight print reminiscent of a **true air-dried F-type gloss paper**.

Applications include digital fibre prints for Fine Art, Giclée, Photo & Décor Art, Reproduction Photo Restoration, Memory Albums & Photo Albums, Greeting Cards, Post Cards and Presentation Art Graphics.

Let us know if you want **samples** of these fantastic new Moab or FineLine papers.

## Keencut Trimmers

Keencut industry leading professional **rotary** trimmers are reasonably priced. A variety of widths are available. We can show you one at JVH in Bellevue or email you a brochure.
