## Epson New Dye Sublimation Printers

What makes these new 44" and 64" printers from Epson so exciting is that they are **100% Epson** - writing heads, chassis, new Epson inks, plus Epson support. Check out all the cool features at:

[http://jvhtech.com/JVH\\_Info/Epson%20F-Series%20DyeSub%20Printers%20Detailed%20Specs.pdf](http://jvhtech.com/JVH_Info/Epson%20F-Series%20DyeSub%20Printers%20Detailed%20Specs.pdf)

Epson F-Series printers are ideal for industrial textile/garment production, soft signage, as well as snowboard/skis production. A great new application is **high-end photographic prints** on substrates such as wet-look metal plates. We have never seen such stunning image quality. **Reinvent** your photo biz with dye sub **special editions**.

## JVH Dye Sub Printer Open House - October

See for yourself what this new technology can do for your business at the JVH event in mid-October in Bellevue, WA. Even if you do not acquire a printer, we will have a unit at a **local service bureau** who can provide printed output of your images.

## Recycling of Epson cartridges

We can recycle cartridges from Epson 11880, 7900/9900, and 7890/9890 printers. If you would like to responsibly get rid of old cartridges lying around, please ship them to JVH in Bellevue. If we make regular deliveries to you, we can also pick up.

## See Epson at Print'13 in Chicago, Sept 8-12

If you are going to this trade show, we can arrange a **special meeting** with Epson for you to discuss your printer needs. Just let us know. The Epson line up at the show will be the StylusPro **aqueous**, T-Series **technical** printers/plotters, S-Series **solvent**, and the brand new F-Series **dye sub** printers.

## Update your Printer Firmware

No matter which model you have, **always** be sure your firmware is current. For most Epson printers, the **LFP Remote Panel** program will find the firmware online and load it. Contact us if you need help.

## Hahnemühle and Canson

We have taken on these classic lines of fine art/high-end photo media and are receiving via pallets so the media arrives in perfect condition, plus free freight to JVH. Let us know if you want us to locally stock specific media items. Check

**Ink&Media&Supplies** on [www.jvhtech.com](http://www.jvhtech.com)

## Epson T-Series Technical Plotters for film

These new blazing fast printers are working well in Signage, CAD, GIS, and Surveying. Another application for them is printing **film positives** for **screenprinting**. Not only do you get good **black density**, but you can also use the Epson color inks for **other** print applications, while not screwing up your printer with some 3rd party gunk.

## Bits & Pieces

1. New **Moab Slickrock Metallic Silver 300** samples at JVH. Looks cool, instant dry.
2. **Media Roll Takeup System** now available
3. JVH Epson **3880** demo printer for sale.
4. Let us know if you want **media samples** from Epson or any other manufacturer.
