## Canon 60" Printer - \$3,000 in your pocket

The new Canon **12-color** iPF9000 printers are working well and we are impressed with them. They have blazing speed, printing about **4 times faster** than an HP or Epson. The bundled template software works well, and most RIP vendors now have drivers available for the printer. Through **March 31**, Canon is offering a **\$3,000** trade-in on any old-dog 17" or wider large-format printer. Please let us know if you want more info on the big 60"-wide Canon, as well as rebate info on other Canon printer models.
