## Epson Proofing Solution - Demo Day, July 9

On July 9, you can take a look for yourself at the new technology proofing solution from Epson. The Epson and EFI *gurus* will be on hand to show you what the system can do for you and answer all your questions. It is a come-and-go event. Attendee space is limited so give us a call.

- When:** Thursday, July 9
- Hours:** 9:00am-4:00pm come-and-go
- Where:** JVH Technical LLC  
4334 130th Place SE  
Bellevue, WA 98006
- RSVP:** call 425.643.7323

Nobody has a proofing solution this *advanced*. It is powerful, easy to setup and learn, and is virtually *automatic*. The key is the new technology Epson 9900 printer and the *embedded SpectroProofer*. You can make perfect proofs within a couple of hours and the automation does it all. Another plus is that is an *open* system and can handle media of all types. Some of the highlights:

- ◆ The Most Complete "Open" Proofing Solution Available
- ◆ Industry's Highest Color Accuracy – Process or Spot
- ◆ Fully Automated Color Management & Proof Verification with the on-board built-in Epson SpectroProofer™
- ◆ Powerful OneBit File Support for Truer Screened Proofs
- ◆ EFI DynamicWedge™ Color Verification Technology
- ◆ Automatic Proof Verification and Label Printing
- ◆ Enhanced 16-bit Spot Color Simulation
- ◆ World-Class Service and Support Directly From Epson
- ◆ The Perfect Solution for In-house and Hardcopy Remote Proofing

## Adhesive-Backed Standard Proofing Paper

Epson has announced the launch of its Unique Standard Proofing Paper Adhesive. The combination of a short term *repositionable adhesive* backing with Epson Standard Proofing Paper as the base, makes SPP Adhesive the perfect solution for color critical *comping applications*. With the widest color gamut available for accurate color reproductions, plus a *thickness* perfectly suited for conforming to *three dimensional package designs*, this version of the Standard Proofing Paper provides a base color and gloss level designed to match commercial packaging applications. Optimized for Epson UltraChrome K3™ Ink and Epson UltraChrome HDR™ Ink, this media delivers outstanding *accuracy* and short-term *stability*. In fact, it's designed to meet the exacting standards of IDEAlliance®. It comes in 17", 24", and 44" x 100' rolls, available from JVH.
