ArtMasterPro - World's Best Fine Art Software

This revolutionary new software from Fo2PiX allows you to generate exceptional high-value fine art from digital photographs whilst capturing **your own unique style** and individual expression. It uses a ground-breaking picture-engine not found in any other graphics or image editors, which unlocks and liberates the **essential artistic elements** of a photograph. The software follows proven art theories in generating textural, geometric, tonal and color sources, which are laid-out and indexed in a **Virtual Studio**, so you can quickly get on with the business of creating high-quality pictures.

You can check it out at www.fo2pix.com Take a look at the Pro and SemiPro Galleries and click on the **larger** image icons below the images. JVH is representing Fo2PiX - if you are interested, please contact us for availability and pricing. Better yet, bring a file over to JVH and we will show you a live demo of the software and print out the results on an Epson large-format printer.

We think this **very sophisticated** software has great opportunities to expand the offerings of professional photographers, commercial artists, photo studios/labs, and digital service bureaus.

Don McCrae, CEO of Fo2PiX will be doing a presentation at the JVH Digital Festival on Jan 30-31. He will also be conducting a **training session** on Feb 1 for the ArtMasterPro software. Let us know if you want to sign up. What fun!

ColorByte RIP now shipping for new Epsos

Image Print G.1 is now available to support the new Epson 4800/7800/9800 printers. Word on the street is the ImagePrint **image quality** is light years better than the driver. **B&W** image quality is also clearly superior. Another **huge** feature - you can run **both** Photo and Matte Black in the **same printer, at the same time**. Wow! "Phatte Black" FAQ is on www.jvhtech.com

It is pretty hard not to get very excited about the ColorByte ImagePrint RIP with its pristine image quality, terrific B&W, Phatte Black ink, plus **workflow features** that save you oodles of time, wasted paper, and ink.

Hard-to-Get Epson 7800/9800 Printers

There is a large nationwide backlog for the printers with **very limited availability** over the next months, especially on the Epson 9800 models. As a regional ProFocus dealer, JVH will continue to receive a decent share of the sparse Epson allocations. If you want to get on the list, do let us know.

Digital Festival in Bellevue WA, Jan 30-31, 2006

Art Wolfe, the world-renown **landscape & nature photographer** will be headlining the guest speakers at the upcoming JVH Festival at the Embassy Suites in Bellevue. What an opportunity to learn from the best.

Paul Lukacs from Epson will discuss **digital fine art printing**, as well as provide a technical overview of Epson inks and papers. We will also have other experts and gurus from **Imacon**, **ColorByte**, **Onyx**, **Epson**, **Seal**, and **Fo2PiX**. Learn about high-end scanning, color management, print finishing, and marketing strategies. OK to RSVP any time - just call Kathy, Ryan, or John at tel 425.643.7323 or email us.

2nd Annual JVH Digital Print Contest

Last June, a stunning collection of fine art Land photography was entered at the JVH Digital Festival. On **January 30, 2006**, we would like to show off **more** of our customers' terrific digital artwork and intriguing photography. This time, we plan on having **categories**, including fine art, landscape/nature, and portrait. We'll also keep you out of the rain at the Embassy Suites. Some **nice prizes** will be awarded. Start making plans - contest rules and details will be posted within 30 days on www.jvhtech.com
