Epson 7800/9800 Printers Now Shipping

Holy smokes! The new Epson printers are **finally** shipping and JVH will receive initial units **this week**. We will also receive a second October delivery. The new printers feature **high print speed** and breakthrough **K3 ink** technology.

There is a large nationwide backlog for these printers with **very limited availability** over the next months. As an Epson ProFocus dealer, JVH will receive a decent share of the sparse Epson allocations. If you want to order a printer, and haven't already, please let us know and we will pencil you in.

Digital Festival in Bellevue WA, Feb 2-3, 2006

Art Wolfe, the world-renown **landscape & nature photographer** will be headlining the guest speakers at the upcoming JVH Festival at the Embassy Suites in Bellevue. What an opportunity to learn from the best.

Media experts from Epson will discuss **digital fine art printing** and new applications for digital prints. They will also provide a technical overview of all Epson inks and papers, plus the latest new printers.

In addition to the terrific speakers, we will also have assorted experts and gurus from **Imacon**, **ColorByte**, **Onyx**, **Epson**, **ColorBurst**, and **Seal**. Learn about high-end scanning, Photoshop, color management, profiles, print finishing, and marketing strategies. The Festival will be **interactive** with experts answering **your questions**.

Mark your calendar for Feb 2-3, 2006 (same schedule both days). OK to RSVP any time - just call Kathy, Ryan, or John at tel 425.643.7323 or email us.

On Feb 2, we will also be holding our **2nd Annual Digital Print Contest**. Last June, a stunning collection of photography and fine art was entered at the JVH Digital Festival. We were thrilled to see such a diverse group of terrific digital art.

We would like to show off **more** of our customers' great artwork and intriguing photography. This time, we plan on having **categories** -- including fine art, landscape/nature, and portrait. We'll also keep you out of the rain at the Embassy Suites. Some **nice prizes** will be awarded. Start making your plans to enter - details will be posted in the next months on www.jvhtech.com

Signing Inkjet Fine Art/Photo Prints

We have been asked what kind of pen works well for signing archival digital inkjet prints. It seems that many people use Sharpies, which actually are one of the worst, yet everybody seems to be using them. They tend to let the ink migrate and spread over time.

Experts have told us that one of the few products that seems to perform well over a protracted time is the **Pigma Micron pen** manufactured by **Sakura**. These archival pens are available in several nib widths and colors, as well as in a brush tip pen. We offer no guarantees, but take a look at 'em. Information and order info is on-line at www.conservationresources.com

New Canon Wide-Format Printers

Let us know if you are interested in the Canon 24"-wide and 44"-wide new large format printers. Utilizing a pigment-based six ink system, 4-picoliter ink droplet size, and 2400 x 1200 resolution, the ImagePROGRAF printers produce exceptional quality.

Outstanding quality, fast print speeds and **included software** are what make the new Canon printers a breakthrough solution. Features include:

- **Pigment Ink** - light fastness of 70 years w/glass.
- **Interchangeable Black Ink** - photo and matte
- **Media thickness** up to 0.8mm (31.4 mil/pts)
- **Remaining Media Length Detection**
- **Non-firing Detection and Compensation Function** - when clogged or non-firing nozzles are detected, head cleaning cycle is automatically initiated.
- **Borderless Printing** - 4 sided edge-to-edge
- **ICC Profile Color Correction** - allows custom ICC media profiles for precise color matching.
- **Exceptional Color Gamut** - vivid reds and yellows.
- **Excellent included software** - these turnkey tools let you easily create, process & print high quality large format output. Bundled software: PhotoPRINT PostScript 3 RIP w/Pantone library, Poster Artist with hundreds of templates, Digital Photo Print Pro, plus an HDI driver for AutoCAD.

Seal Ultra 44 Laminator

This best buy 44"-wide hot/cold laminator and mounter is available from our last Digital Festival. Nice discount plus set-up and training included. Please let us know if you are interested.
